

Parent Guide to the PowerSchool Mobile App

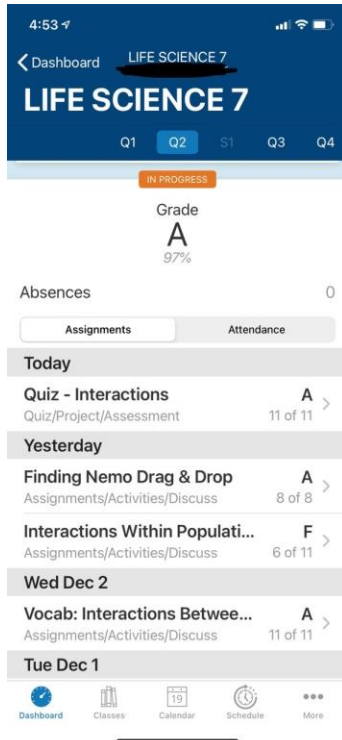

The PowerSchool Mobile App allows parents and guardians to monitor student grades and is highly recommended for all parents and guardians. You can download the app for iPhone or Android devices. Once you download the app, contact Mrs. McCabe in the school counselor's office to receive your child's specific pairing code and the school's 4-letter code.

After you have the app downloaded and setup, follow these steps:

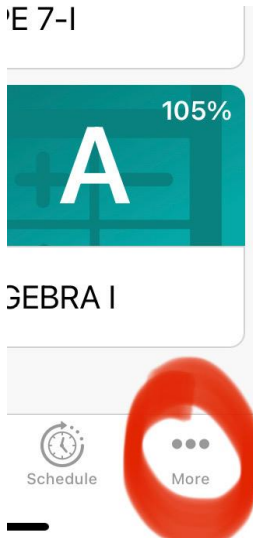

Step 1: Once you have signed into the PowerSchool app, you'll see all your students' classes. Click on a class to view the grades and setup desired notifications.

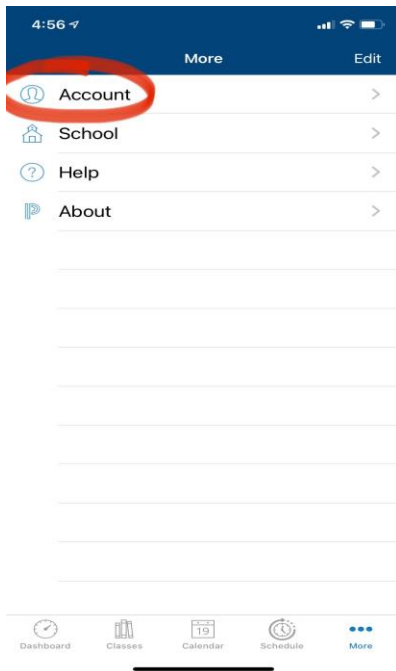

Step 2: When you click on a specific class, you'll notice a grade report. Make sure you are in the right quarter to properly view current grades.

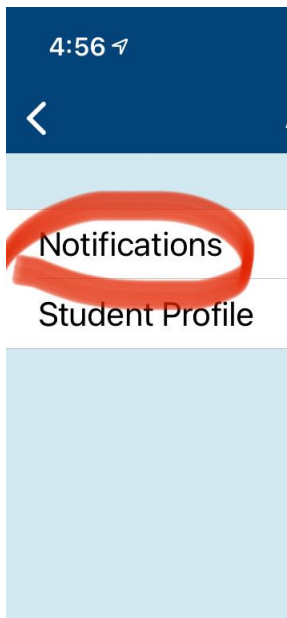

Step 3: Click on the “More” option in the bottom right corner

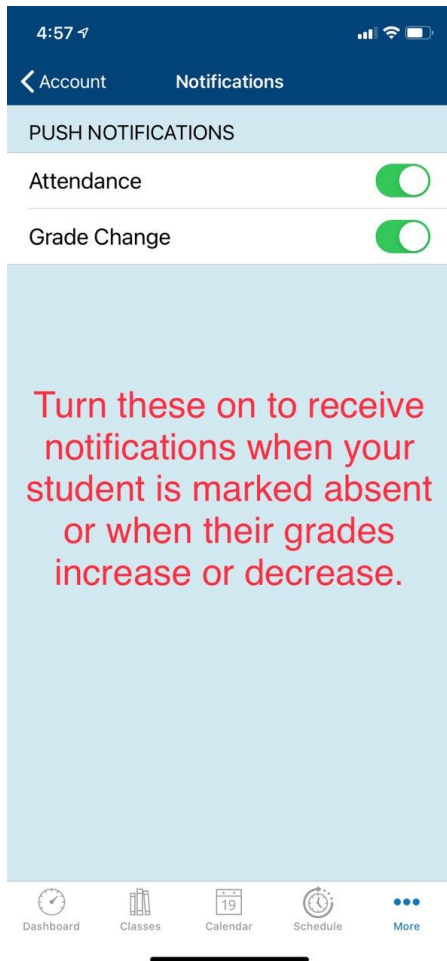

Step 4: Click on the “Account” tab

Step 5: Click on the “Notifications” tab

Step 6: Activate the desired fields to set up notifications for any of your student's classes.

Step 7: Repeat this process for any class in which you desire to receive notifications. As always, contact your student's teacher directly to learn more about their grading policies and procedures.
